In just a **few hours of training**, you will learn how to drive together with your crew, and move unhurriedly through carefully selected river parks, easily finding moorings and services.

Take your time; this is an immersive experience, which you savour more and more as the days go by. **The boats are slow**, respect the flora and fauna, do not produce high waves and are silent.

We host tourists from all over the world who come to discover the lesser-known secrets of our river parks, enhancing tourism in smaller towns.

How we support you

Before departure

We will help you **choose the right itinerary** to suit your and your crew's desires. Whether you are a lover of the sun on the sea, a lover of good food, an adventurer, or a novice, we will advise you at best. All our itineraries are connected by navigable channels and you never go out to sea; each itinerary also presents very different characteristics.

Boats are insured for **third party liability** and for possible **damages** you could incur during the navigation.

To allow you to enjoy the experience without any worries, we propose you some **extra insurance formulas**, which will protect you before and during your holiday.

Limitation of Liability for Damage - reduces the security deposit exposure and reduces the skipper's risk

Cancellation and Travel Insurance - can only be purchased at the time of booking and allows cancellation for medical reasons as well as assistance during the trip.

NEW: you can access all the benefits of the new **EASY CHANGE PLAN**, which allows you to **change the date** of your booking without penalty and **without justification**, up to 3 weeks before departure.

During the holiday

We monitor the boats thanks to GPS tracker to ensure your peace of mind at all times and prevent you from unintentionally taking a wrong turn.

We operate a **weather forecast system** that you can refer to if bad weather should force you to suspend sailing for as long as it takes, waiting for good weather to return. **We notify** you by SMS or WhatsApp of all relevant navigation conditions, day by day.

We provide you with a first-class, up-to-date and detailed **maps** and **river guide book**, which lists all available moorings, free or at **special rates**, along the entire route.

We provide you with on-site **technical assistance**, if necessary, with the help of qualified staff, including the use of fast speedboats that can reach you wherever you are.

We teach you everything you need to know about driving the boat, and support you step by step during your holiday. You can refer to a team of reliable, helpful and experienced people at all times.

Do you want to buy a boat for open sea navigation?

Thanks to our partnership with leading shipyards in Europe, you can now **purchase our boats** equipped for **maritime and coastal navigation**, as well as river navigation. Whether you are looking for a boat for your own private use, or to rent to tourists starting your own business, if you are looking for a solution with **exceptional liveability, low fuel consumption, and incredible ease of manoeuvre**, contact us. We will certainly propose you an ideal solution, matching your needs. You can purchase the boat on a leasing basis if you wish. We have an attractive 'charter package' if you wish to use the boat for professional purposes.

Invest in a new boat with us

With a reasonable investment of around 100k€ you can **buy a new boat with us**, which will then be used on the professional charter activity. You will secure the right to use your boat for a number of weeks per year, and the rentals contracts will enable you to recover your investment. **After 7 years, you can exit the programme at no cost.**

In conclusion, you will own a modern boat and be able to use it without any costs, neither management, ownership, nor insurance.

A formula that allows you to own a boat for 7 years without costs.

Itineraries

All our itineraries are designed to **last 7 nights**. Check-in takes place from 3 p.m. on the first day and lasts about 2 hours, including briefing and practice test. Check-out is at 9 a.m. on the last day. Each route takes about **25 hours**, or **4 hours of sailing per day** on average. After 6 p.m., you moor and spend the night in safety and tranquillity.

Each itinerary offers special interests and several activities to do on land and in the water, towns to discover and attractions to visit for adults and children. Shore excursions are often made **by bike**.

During river navigation you will encounter **navigation locks and movable bridges**. Crossing them is itself an experience, that takes about 20 minutes each.

Let us advise you in choosing your itinerary, to make sure it meets your expectations.

A boating holiday does not have a rigid predefined stops agenda. **The itinerary is flexible. The weather can influence** the programme, as can your crew, who will decide day by day what they feel like doing.

If you don't have 7 days, we can offer **you 4-day mini-routes** with no more than 12-15 hours of sailing. We have **2 departure and return bases**, one in **Veneto** and one in **Friuli Venezia Giulia**. Starting from these 2, we have selected **4 different itineraries** that we propose to you. Generally, we depart from and return to the same base, but we also propose an itinerary where you can make the one-way trip, leaving from one base and arriving at the other, where if you wish you will find your car waiting for you.

Venice Lagoon and Minor Islands

The navigation route begins in the Natural Park of the Sile river and crosses the Venice Lagoon, incorporating many wonderful and little-known islands where you can enjoy the incredible peace and quiet. A day in dreamy and chaotic Venice is not to be missed, followed by long walks on the beaches of the Adriatic coast and a dip in the sea. A perfect combination of nature, culture, and history, accompanied by view that's been taking people's breath away for over 500 years.

Cruising through the Venice Lagoon is an incredible and unique experience. Venice is absolutely enchanting when seen from the water and you can avoid the city's crowded, chaotic streets and alleyways.

But the lagoon, declared a World Heritage Site by UNESCO, offers much more. Cruise surrounded by incredible natural scenery; all the smaller islands around Venice (often little known to tourists), are wonderful places to stop.

Burano and Murano are definitely the most famous, but you can also reach smaller islands with your boat, such as Torcello, Sant'Erasmus, San Francesco del Deserto, Vignole, and Pellestrina.

That's as well as other enchanting places, including the Natural Park of the Sile River, which has some of the most beautiful scenery along Italy's waterways, as well as the beaches of the Adriatic coast.

Sail serenely along the Sile river, past Venetian-style villas with Italian-style waterfront gardens, and ancient villages. Alternate bike rides with Kayak trips. But above all, relax, and admire nature, in the peace and quiet guaranteed by this river with its fresh spring waters.

Your arrival at the Portegrandi basin will mark your arrival in the lagoon, and a change of pace for your holiday.

Visit Torcello, with its priceless archaeological heritage and monuments recognized as UNESCO World Heritage. Then continue towards Burano. With its colorful houses, the island looks like a painting.

The day passes quickly among alleys full of life and an aperitif. Discover the art of artistic lacemaking and try Mrs. Carmelina's artisan cookies. It's already time to leave, to discover Murano and its glass art.

Arriving in Venice is a truly exciting moment. A unique and timeless place in the world. Cruise along the Giudecca canal and admire the skyline of the most important monuments. Moor the boat and stroll through the mysterious streets until you reach Piazza San Marco.

Stop for a break in the historic Caffè Florian, before visiting the Doge's Palace and the Basilica. At sunset, climb to the top of San Marco's belltower, and you're sure to be delighted.

Friuli Venezia Giulia

Starting from the Precenicco base, you can choose popular, well-serviced locations, with facilities for every age group, or head inland to fishing villages and archaeological sites.

The navigation area extends from Caorle in the west to Grado in the east.

Along the itinerary there are many tourist ports, guaranteeing the chance to moor near the most beautiful historic centers.

The suggested locations are all connected by internal canals, so you don't need to go out to sea. Cruising is varied, characterized by the vast lagoon landscape with both natural rivers and artificial canals.

During this cruise you can really relax.

The lagoon of Marano and Grado is easy to navigate and has unique features. We have fishermen friends who open their homes to our customers so you can enjoy grilled fresh fish and good wine in a friendly atmosphere before spending the night moored at the casone.

The Roman city of Aquileia, a UNESCO World Heritage Site, is truly amazing. It's an archaeological pearl that is worth a visit, as is the ancient village of Marano, which today houses a colorful fleet of fishing boats and an access point to an important protected nature reserve.

Cruise through a green and relaxing natural landscape, often accompanied by curious swans, majestic and elegant herons, and flocks of seagulls.

After an hour's sailing, the scenery changes completely when the Stella River flows into the lagoon. Here you will be blinded by the glare of the sun on the still water and enchanted by the silence that pervades this part of the lagoon.

The lagoon is crossed by comfortable navigable canals. Travel armed constantly with a camera and binoculars for birdwatching.

Call Daniele, and ask if his fishing net is free; stopping in this unique spot means you can experience authentic lagoon fishing, and taste the freshest fried fish, straight from the net.

For the night, choose a small village or a lively tourist resort.

The beaches of Lignano Sabbiadoro and Grado are very well-known, but the pearls of this itinerary are hidden from the eyes of distracted travelers.

Aquileia is one of Italy's most important archaeological sites in Italy, where the oldest and most famous Roman port on the Adriatic was unearthed.

Porto Anfora is a small island where you can relax and admire the most intense sunset when the sun plunges into the lagoon, the horizon melts, and everything takes on the color of fire.

Beaches and culture between Veneto and Friuli

A one-way itinerary, which allows you to visit numerous places and avoid returning to the departure base halfway through your holiday.

The ideal solution for those who want the boat experience in the open air, with endless choices.

Every day, you can swim at a different beach, visit the nearest historic center, and spend the evening among renowned restaurants or on the deck of your yacht. This one-way cruise takes you between fishing villages and lagoons, with straightforward cruising through low-traffic canals, and many moorings available (many of them for free).

The itinerary includes a monumental archaeological area and allows you to make a quick detour into the Venice

Lagoon for one or two nights max., so as not to miss out on the chance to see a city that is unique in the world.

It's a very varied territory in terms of landscape and nature, constantly switching between canals, lagoons and rivers. The scenery changes every hour, never remaining constant.

The spearhead of this itinerary is the historic village of Caorle, with its colorful pedestrian historic center and its long beaches, reachable by bike or on foot by mooring near the center.

Continuing, the view passes quickly from the canal to the marshes, and again from the lagoon to the sea, until you reach the two most famous seaside resorts on this itinerary: Lignano and Jesolo.

Beaches reign supreme along this itinerary. Stop and swim in a different location each day. Without a doubt, it's our seaside route par excellence. There's also the chance to dive into the water directly from the boat, in complete safety of course.

But it's not just the beaches. Attractions abound even for the little ones, with cycle paths for sportier travelers.

Concordia Sagittaria is a little-known center overlooking the Lemene River, where you can visit some impressive archaeological excavations.

To reach this historic jewel, sail through the enchanting natural scenery of the marshes of Caorle and Baseleghe, where the large free and low-traffic lagoons are often surrounded by the unmistakable forms of the marsh fishing huts with reed roofs.

Don't forget to bring your bikes with you: they're indispensable on this route. Cycle paths are everywhere, and the boat cannot always be moored in historic centers. It really is the ideal way to get around.

There are also many tourist itineraries for cyclists, and you can also split up, some staying on board the boat, and some traveling by bike, meeting up again a few hours later in a different location.

Venetian Villas and the Riviera del Brenta

Retracing the navigable route that has taken boats from Venice to Padua for over five centuries, you can admire these wonderful ancient villas.

The Riviera del Brenta is dotted with basins and movable bridges, and therefore requires patience and a certain driving skill.

You can even reach Padua, mooring near the historic center, and then visit the city by bike. Padua is one of Italy's most important cities, with a historic university, a wonderful historic center, artwork by Giotto, the basilica of Sant'Antonio, and much more.

It's important to remember that the departure and return of the cruise are always scheduled from the Casale sul Sile office.

Therefore, you first proceed through the Sile park, then through the Venice Lagoon, and on the third day reach the Riviera del Brenta, where you can cruise for the following 3 days, before returning to the starting base to complete your trip.

Riviera del Brenta observes a weekly closure on Mondays so it's a good idea to organize your cruise accordingly.

The famous "Venetian Villas", some of which were designed by the founding architect of this tradition, Andrea Palladio, can be visited as museums.

Other villas are private and are only viewable from the outside.

In the first part of the holiday you will be able to visit some incredible islets of the vast Venice lagoon, where good wine is produced, and visit museums with minor attractions. The scenery is vast and natural, and your gaze travels to the horizon marked by endless spires and bell towers. Search the navigation guide for the best fish restaurants and markets in the area.

Then turn the bow to the west, leave Venice behind you and get ready to enter the Riviera del Brenta.

The palaces and villas observe you austere until you pass directly in front of them at low speed.

Moor the boat in the public quays of Mira and Dolo, and stroll in the central islands, where the mills turn slowly and squares are filled with restaurants.

Villa Pisani Nazionale, a magnificent palace with gardens and fountains, is the most monumental of the buildings, and is located in the center of Stra.

Padua is one of the oldest cities in Italy. It is located at the very end of the navigable canal, and mooring can be found near the center. Here the scenery is no longer natural, but urban.

Among the highlights of a visit to Padua, the Scrovegni Chapel frescoed by Giotto, the Basilica of Sant'Antonio, and the ogival square with fountains of Prato della Valle are not to be missed.
